

Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

1. – 4. (Canceled)
5. (Currently Amended) The A granulated product, wherein the product contains a compound with poor wettability and a surfactant, and according to claim 3, wherein the weight ratio of the compound and the surfactant is 1 : about 0.001 to less than 0.1.
6. (Currently Amended) The granulated product according to claim ~~[[3]]~~ 5, wherein the weight ratio is 1 : about 0.005 to about 0.05.
7. – 21. (Canceled).
22. (New) The granulated product according to claim 5, wherein the product has the characteristics of an angle of repose of 45° or less.
23. (New) The granulated product according to claim 5, wherein the product has the characteristics of an angle of repose of 40° or less.
24. (New) The granulated product according to claim 5, wherein the product has the characteristics of an angle of repose of 35° or less.
25. (New) The granulated product according to claim 5, wherein the weight ratio of additives other than the surfactant with respect to the total granulated product is about 20 to about 60% by weight.
26. (New) The granulated product according to claim 5, wherein the product further contains a binder, and the weight ratio of the binder with respect to the compound is about 2 to about 5%.

27. (New) A molded product made by molding the granulated product according to claim 5.
28. (New) A molded product made by molding the granulated product according to claim 6.
29. (New) A molded product made by molding the granulated product according to claim 22.
30. (New) A molded product made by molding the granulated product according to claim 23.
31. (New) A molded product made by molding the granulated product according to claim 24.
32. (New) A molded product made by molding the granulated product according to claim 25.
33. (New) A molded product made by molding the granulated product according to claim 26.
34. (New) The granulated product of claim 5, wherein at least 35% by weight with respect to the total weight of the product does not pass through a 100-mesh sieve.
